**NOTE**  
 1. Environment Agency updated Flood Map for Surface Water (uFMSW) data. Further information on the mapping is provided in What is the updated Flood Map for Surface Water (Nov 2013) and uFMSW Basic Package Product Description (2013) reports.  
 2. It should be noted that certain locations not shown may be at risk of flooding from other sources. For example, areas susceptible to drainage system inadequacies or localised ponding; areas flooded due to debris blockage or areas adjacent to ordinary watercourses which have not been subject to hydraulic modelling.

**INTENDED USE**  
 This mapping is intended to provide a strategic overview of surface water flood risk within Epping Forest District and should not be used to assess flood risk for individual properties
